

REMARKS

Prior to this Amendment, claims 1-4 and 10-13 were pending in the application.

Claims 19-22 are added to present a system claim with limitations similar to those found in allowable claim 1 but in system form.

After entry of the Amendment, claims 1-4, 10-13, and 19-22 remain for consideration by the Examiner.

Claim Rejections Under 35 U.S.C. §101

In the Office Action mailed April 27, 2010, claims 10-13 were rejected under 35 U.S.C. §101 as being directed to non-statutory subject matter because the specification expressly defined "computer readable medium" as including carrier waves. This portion of the specification has been amended to define "computer readable medium" without including carrier waves. As a result, these claims are believed to comply the subject matter requirements of 35 U.S.C §101.

Allowable Subject Matter

In the Office Action mailed April 27, 2010, claims 1-4 were allowed and claims 10-13 were rejected under 35 U.S.C. 101 but were otherwise found allowable by the Examiner. The statutory subject matter rejection has been addressed by amendments to the specification. As a result, claims 1-4 and 10-13 are believed in condition for allowance.

New independent claim 19 is directed to a data processing system with limitations similar to those found in allowed claim 1 but in system (means for) format. Hence, claim 19 is also believed in condition for allowance. Claims 20-22 present limitations similar to those found in claims 2-4 and depend from claim 19. Hence, these claims are believed allowable as depending from an allowable base claim.

Conclusions

Based upon the foregoing, Applicant believes that all pending claims are in condition for allowance and such disposition is respectfully requested.

No fee is believed due with this Amendment. However, please credit any overpayment or charge any underpayment to Deposit Account No. 50-1419.

Respectfully submitted,
